PROFILE

Product specialist with UX and marketing roots. Background in fintech, B2B software and consumer apps. I took **Your Light** from idea to a live App Store release, and I also published **Mindous**, a voice-sharing app. I define the user needs, scope and brand system, and I understand the tech behind what ships: push messaging, payments, email and backend.

FEATURED PRODUCTS

Product Manager, Your Light

Aug 2026 – Present

Wellbeing app (iPhone) · Live on the App Store since Oct 2026

Try it on iPhone · Android coming soon

- **End-to-end ownership:** idea, user needs, scope, brand system, App Store listing and release. Addressed App Review feedback. Available in English, Malay and Chinese.
- **Brand system:** colours, typography, icon and tone of voice.

Key features and what is behind them

- **Push messaging:** set up Firebase Cloud Messaging for Android and Apple push for iPhone.
- **Backend:** Supabase for accounts, database and server functions, with sign-in by Apple, Google or email.
- **Real-time testing:** AWS Amplify for real-time testing of the app.
- **Email:** Resend for sign-up and password emails.
- **Payments:** decided on RevenueCat as the one subscription and payments layer across Apple and Google (iPhone first).
- **AI learning assistant:** implemented an in-app AI assistant on each learning activity. Users tap the Your Light button to get the page explained, and help with how to reply or answer.
- **Rewards and gamification:** “baby lights” earned for finishing steps and chapters, certificates, sound and haptics, and a gentle streak revival with no pressure.
- **Product features:** one small action a day, mood check-ins, friends by invitation, gentle reminders, learning courses with games.

Version 1.0 is live on the App Store. Version 1.1 (rewards, payments, courses) is in TestFlight testing.

Product Manager, Mindous

Jul – Sep 2026

Voice-sharing app · Published on the App Store

- Published a voice-sharing app: up to three one-minute clips, a chronological feed with no ranking, and a “What I do” profile.
- Defined the audience, product rules and brand; decided what version 1.0 includes and what waits.
- Directed the recording, feed and profile flow; wrote the App Store listing and handled submission and release.
